¹ Each School Board may name one or more FOIA Officers. REQUEST FOR INFORMATION

Overview

It is the operational procedure of the Amherst County Public Schools to respond promptly to all requests for information about the county schools. The county school division is obligated under the Virginia Freedom of Information Act (FOIA) to respond to written or spoken requests to examine public records in the division's custody made by (i) Virginia citizens who are not in jail or prison, (ii) representatives of newspapers and magazines with circulation in the Commonwealth, and (iii) representatives of radio and television stations broadcasting in or into the Commonwealth.

For the Requestor

1. The Clerk of the Board is Amherst County School Board's FOIA Officer. The FOIA Officer serves as a point of contact for members of the public in requesting public records and coordinate(s) the School Board's compliance with FOIA. The FOIA Officer may be reached at 434-946-9340.
2. Official records subject to disclosure under the Freedom of Information Act are open during the regular office hours of the Amherst County School Board's central office.
3. The request for documents need not be in writing, and you are not required to cite FOIA or refer to the request as a FOIA request.
4. At the same time, a written request will help ensure an accurate and timely response, and school division's staff may ask you to complete a form. (See KBA-F1).
5. The requestor must identify the records sought with "reasonable specificity."
6. Unless otherwise specified by the FOIA Officer, inspection of records takes place at the central office of Amherst County Public Schools, and records are not removed from that site.
7. Nonexempt records maintained in an electronic database are produced in any tangible medium or format identified by the requester that is regularly used in the ordinary course of business by Amherst County School Board, including posting the records on a website or delivering the records through an electronic mail address provided by the requester.
8. FOIA applies to existing public records; it does not require creation of records that do not exist.
9. FOIA does not require the county school division to honor "standing" requests for public records that may be created in the future; instead, the county school division must produce any nonexempt documents in existence at the time of the request.
10. Before processing a request for records, the county school division may require the requester to pay any amounts owed to the public body for previous requests for records that remain unpaid 30 days or more after billing.

11. The county school division may assess reasonable charges for actual costs incurred in accessing, duplicating, supplying or searching for requested records, including:
 - Copy fees (the current charge per page is five cents (\$0.05)).
 - Staff costs (the hourly wages of the employee who has the skills necessary to research and prepare records for release).
 - Postage.
12. If the actual cost to the county school division to respond to a request is likely to exceed two hundred dollars (\$200.00), the county school division may, before continuing to process the request, require the requesting party to agree to payment of a deposit, not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the requested records. If the county school division requires the payment of a deposit, the time in which the agency must respond to the request stops running until the day the deposit is received.
13. One of the following forms of identification must be presented, or a photocopy thereof must be provided, before any person is allowed to inspect any records or receive copies of any records:
 - press identification identifying requester as a representative of a newspaper or magazine with circulation in the Commonwealth or of a radio or television station broadcasting in or into the Commonwealth, or
 - driver's license or other official photo identification showing that requester is a citizen of the Commonwealth.
14. The FOIA Officer or designee is present during inspection or copying of records. A record of each inspection is made, using form KBA-F2 Record of Inspection and/or Delivery of Copies.

For the School Division

1. Any document or recording of any kind, used in the transaction of public business and possessed by the county school division, is a public record. This includes, but is not limited to, e-mail, video tapes, computer data, handwritten notes, and draft documents.
2. As a general rule, all public records are open to public inspection and copying.
3. The requestor's motive is irrelevant, and county school division staff should not query a requestor regarding his motive.
4. Promptly, but in all cases within five working days of receiving the request, the school division provides the requested records to the requester or makes one of the following responses in writing:
 - (a) The requested records are being entirely withheld. The response will identify with reasonable particularity the volume and subject matter of the withheld records, and, with respect to each category of withheld records, cite the specific Virginia Code section(s) or other law that authorizes the withholding of the records.

- (b) The requested records are being provided in part and are being withheld in part. The response will identify with reasonable particularity the subject matter of the withheld portions and cite, with respect to each category of withheld records, the specific Virginia Code section(s) or other law which authorizes the withholding of the records.
- (c) The requested records could not be found or do not exist. If the school division knows that another public body has the requested records, the response includes contact information for the other public body.
- (d) It is not practically possible to provide the records or to determine whether they are available within the five-day period. Such response specifies the conditions which make a response impossible. If the response is made within five working days, one of the preceding responses is provided within an additional seven-day period.

No public record is withheld in its entirety on the grounds that some portion of the public record is excluded from disclosure by law. A public record may be withheld from disclosure in its entirety only to the extent that an exclusion from disclosure applies to the entire content of the public record. Otherwise, only those portions of the public record containing information subject to an exclusion may be withheld, and all portions of the public record that are not so excluded are disclosed.

The school division may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search and a response within the time outlined above will prevent the school division from meeting its operational responsibilities. Before proceeding with the petition, the school division will make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

- 5. The five-day period begins on the first working day following the day the request is received by the school division, and ends at the close of business on the fifth working day following receipt of the request. Any time that elapses between the time the requester is notified of an advance cost determination pursuant to the procedures detailed below and the time that the requester responds to that notice is not counted in calculating the five working days.
- 6. The FOIA identifies more than 80 categories of documents that are excluded from its mandatory disclosure provisions. Exclusions include personnel records, medical and mental health records, library records of patrons, tax returns, and certain criminal records.

Internal Procedures

- 1. The FOIA Officer, after receiving a request, promptly makes an initial determination as to whether the requested records will be provided to the requester, will be withheld, either completely or in part, or if it is practically impossible to provide the requested records or to determine whether they are available within five days.
- 2. If the FOIA Officer is unsure whether the requested documents should be provided to the requester, legal advice is promptly sought.

3. If the FOIA Officer is uncertain whether the requested records exist or where they may be located, efforts are promptly initiated to locate the records or determine whether they exist.
4. When a county school division receives a FOIA request in writing, the request a record of the date of receipt should be made.
5. You can ask a requestor to fill out a written form but you can't require a written form. A written form/ letter is highly encouraged.
6. School division staff should be alert to possible FOIA requests at public meetings. These requests shall follow the same course as those described above.
7. The School division office holding the public records that are the subject of a FOIA request shall work with the Clerk of the School Board and the Superintendent to insure that a response is made within the statutory time periods.
 - If the records are subject to public inspection, the records must be produced within five (5) working days.
 - If some or all of the records are subject to exclusion under FOIA, the requestor must be notified in writing of the reason for the exclusion within five (5) working days.
 - If the records cannot be found or do not exist, the requestor must be so notified in writing within five (5) working days.
 - If it is determined that it is not practically possible to produce the records within five (5) working days, and the county school division advises the requestor of this in writing or orally, the county school division is automatically entitled to an additional seven days in which to provide one of the four preceding responses.
8. If a requestor asks for charges to be estimated in advance, the county school division must provide the requestor with an estimate of charges before sending the documents and assessing charges.
9. If school division records have been transferred to any entity, including any other public body, for storage, maintenance or archiving, the school division remains the custodian of the records for purposes of responding to requests and is responsible for retrieving and supplying the records to the requester.

10. Any records to be disclosed are assembled for inspection and copying by School Board staff, under the direction and supervision of the FOIA Officer.
11. School Board staff are responsible for recording the date the request was received, verifying photo identification and signature and recording and assembling additional information about the request as indicated on Form KBA-F1 Request for Public Records.

SCHOOL VISITORS

Generally

Visitors are welcome in the schools as long as their presence is not disruptive. Upon arriving at a school, all visitors must report to the administrative office. Potential visitors, including parents, who are registered sex offenders, should consult Policy KN Sex Offender Registry Notification and Policy KNA Violent Sex Offenders on School Property before arriving at school property or school sponsored activities. The school division expects mutual respect, civility and orderly conduct from all individuals on school property and at school events. Unauthorized persons, including suspended and expelled students, will be requested to leave school grounds by the building administrator. Unauthorized persons who fail to leave the school grounds or school activity as requested will be considered trespassers. The School Board authorizes the superintendent to take all necessary actions regarding the safety, order and preservation of the educational environment on School Board property or at school division sponsored activities. Law enforcement may be called to enforce this policy.

Anyone, including students, who enters a school at nighttime without the consent of an authorized person except to attend an approved meeting or service or who enters or remains on any school property, including school buses, in violation of (i) any direction to vacate the property by an authorized individual or (ii) any posted notice which contains such information, posted at a place where it reasonably may be seen may be prosecuted.

Parents

Parents are encouraged to visit the schools on scheduled days for conferences with teachers, assemblies, PTA meetings, volunteer service and other school programs. Noncustodial parents are not denied, solely on the basis of their noncustodial status, the opportunity to participate in any of the student's school or day care activities in which such participation is supported or encouraged by the policies of the School Board.

Board Members

Periodically, Board members may visit schools within the division. The purpose of these visits is to assist in fulfilling their responsibilities and increase understanding of actual educational practices. School Board members follow the same procedures applicable to all other visitors when visiting a school.

Entry into School Buildings/Sites

Policy

No individual or group of individuals may enter the classroom area of any school facility without the express permission of the administrator in charge of the site. Individuals are to stop their progress into the building at the identified waiting area adjacent to the Main Office area.

Regulations

- No individual or group of individuals may enter the classroom area of any school facility without permission.
- Permission to enter this area must be secured from the building administrator/site manager.
- Individual(s) must stop their progress at the waiting area adjacent to the Main Office or any other specifically identified area.
- The rationale for this action includes, but not limited to, the following:
 1. Safety of students/staff in keeping unapproved individual(s) out of areas where access is more open (knowing who is in the building at all times
 2. Prevents disruption of the instructional program
 3. Prevents situations that lead to a reported irregularity in testing programs

Consequences

Individual(s) who violate this policy are subject to immediate removal from the site and may be charged with trespassing. A no trespassing notification for presence on any School Board controlled property may be filed. Law enforcement may also be involved, in the discretion of school administrators.

This policy will not apply to appropriately approved individual(s) who are entering said area for business-related visits (including consultation with staff) deemed appropriate by school administration.

SERVICE ANIMALS IN PUBLIC SCHOOLS

A. Service Animals

An individual with a disability is permitted to be accompanied by his/her service animal on school property when required by law, subject to the conditions of this policy.

A “service animal” means a dog that has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. (See, however, Section D regarding miniature horses.) The work or tasks performed by a service animal must be directly related to the individual’s disability.

School officials can ask the owner or handler of an animal whether the animal is required because of a disability and what work or task the animal has been trained to do unless the answers to these inquiries are readily apparent. School officials may not ask about the nature or extent of a person’s disability and may not require documentary proof of certification or licensing as a service animal.

B. Requirements That Must be Satisfied Before a Service Animal Will be Allowed on School Property

Request: A person who wants to be accompanied by the person’s service animal must make a prior written request. If a person wants to be accompanied by a service animal at a school, the request should be made to the school principal. If a person wants to be accompanied by a service animal at any other location, the request should be made to the superintendent. A request must indicate the scope of permission sought, including the time period and the location(s) at which the service animal will be present. Requests may be granted for a period of time up to one school year. Requests must be renewed each school year.

Vaccination: The service animal must be immunized against diseases common to that type of animal.

Health: The service animal must be in good health. The owner or handler of the animal must submit to the school principal or superintendent, as appropriate based on the location for which the animal’s presence is requested, each school year documentation from a licensed veterinarian showing proof of the service animal’s current vaccinations and immunizations.

Control: A service animal must be under the control of its handler at all times. The service animal must have a harness, backpack or vest identifying the dog as a trained service dog, a leash (blaze orange in color) for hearing dogs, a harness for guide dogs, or other tether unless either the handler is unable because of a disability to use a harness, backpack, vest, leash, or other tether, or the use of a harness, backpack, vest, leash, or other tether would interfere with the service animal’s safe,

effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control.

C. Service Dogs in Training

Experienced trainers of service animals may be accompanied on school property by a dog that is in training to become a service animal. The dog must be at least six months of age. Trainers must wear a jacket identifying the organization to which they belong. Persons conducting continuing training of a service animal may be accompanied by a service animal while on school property for the purpose of school business. Persons who are part of a three-unit service dog team may be accompanied by a service dog while on school property provided that person is conducting continuing training of a service dog. A three-unit service dog team consists of a trained service dog, a disabled person, and a person who is an adult and who has been trained to handle the service dog. The dogs may accompany these persons while on school property for school purposes.

Use of Harnesses, Vests, etc. A dog that is in training to become a guide dog or a currently trained guide dog that is undergoing continuing training must be in a harness.

A dog that is in training to become a hearing dog or a currently trained hearing dog that is undergoing continuing training must be on a blaze orange leash.

A dog that is in training to become a service dog or a currently trained service dog that is undergoing continuing training must be in a harness, backpack, or a vest identifying the dog as a trained service dog.

The training cannot disrupt or interfere with a school's educational process. It is expected that training would not normally take place in the classroom during instructional time.

All requirements of this policy which apply to service animals, such as annual written requests, and supervision, care and damages, also apply to dogs in training.

D. Miniature Horses

The school division will make reasonable modifications in policies, practices, or procedures to permit the use of a miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability. In determining whether reasonable modifications in policies, practices, or procedures can be made to allow a miniature horse into a specific facility, the school division must consider the following factors:

1. The type, size, and weight of the miniature horse and whether the facility can accommodate these features;
2. Whether the handler has sufficient control of the miniature horse;
3. Whether the miniature horse is housebroken; and

4. Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

All additional requirements outlined in this policy, which apply to service animals, shall apply to miniature horses.

E. Extra Charges

The owner or handler of a service animal cannot be required to pay an admission fee or a charge for the animal to attend events for which a fee is charged.

F. Supervision and Care of Service Animals

The owner or handler of a service animal is responsible for the supervision and care of the animal, including any feeding, exercising, and clean up.

G. Damages to School Property and Injuries

The owner or handler of a service animal is solely responsible for any damage to school property or injury to personnel, students, or others caused by the animal.

H. Removal of Service Animals From School Property

A school administrator can require an individual with a disability to remove a service animal from school property under the following circumstances:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken;
3. The presence of the animal poses a direct threat to the health or safety of others; or
4. The presence of an animal would require a fundamental alteration to the service, program, or activity of the school division.

If the service animal is removed, the individual with a disability shall be provided with the opportunity to participate in the service, program, or activity without the service animal.

I. Denial of Access and Grievance

If a school official denies a request for access of a service animal or a dog in training, the disabled individual or parent or guardian can file a written grievance with the school division's Section 504 Coordinator.

PUBLIC COMPLAINTS

Complaints involving a particular school are handled within the school through the established channel of responsibility. If the complaint cannot be resolved at the level of the principal, it is referred to the superintendent or superintendent's designee. If the central office staff and complainant cannot reach a satisfactory solution, the matter may, at the School Board's discretion, be heard at a regular board meeting.

Any parent, custodian, or legal guardian of a pupil attending the Amherst County public schools who is aggrieved by an action of the School Board may, within thirty days after such action, petition the local circuit court to review the action of the School Board. The court will sustain the action of the School Board unless the School Board exceeded its authority, acted arbitrarily or capriciously or abused its discretion.

PUBLIC COMPLAINTS ABOUT LEARNING RESOURCES

Resolving complaints about the selection and use of learning resources requires a recognition of responsibilities and considerations of the rights of the individual, the student, the community, the principal, the teacher, the media specialist, the school and the school board.

In reviewing complaints, the following questions should be asked to determine whether the complaint points up inconsistencies with the school division's initial selection objectives:

1. Are the materials appropriate for instructional use such that they enrich and support the attainment of the educational objectives of the curriculum, taking into consideration the varied interests, abilities, intellectual development and maturity levels of the pupils served and the standards of the community?
2. Do the materials stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards?
3. Do the materials provide a background of information which will enable pupils to make intelligent judgments in their daily lives?
4. Do the materials contribute to the presentation of opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical analysis of all media?
5. Are the materials representative of the many religious, ethnic and cultural groups and their contributions to our American heritage?
6. Do the materials promote the goal of providing a comprehensive collection appropriate for the interests and needs of the users, recognizing their right to access a wide range of reading materials?

Procedures for Review

Most complaints can and should be resolved at the building level. Many concerns are the result of simple misunderstandings or misinformation and can be resolved through informal inquiry and discussions with principals and/or teachers or library media specialists.

When a complaint is received, the school principal will check decisions on questioned and challenged learning resources on file in the office of the Assistant Superintendent for Curriculum and Instruction to determine whether the learning resource has been questioned before. If a decision is on file and the challenge is substantially the same, the principal will share that decision with the complainant. If any significant difference is found in the new challenge, or if the learning resource has not been challenged before, the following procedure shall apply.

1. Discussion with School Principal

a. The school principal will hold a conference with the complainant. At the discretion of the principal, the teacher or library media specialist or elementary library aide using the resource will be present at the conference.

b. If the complainant is dissatisfied with the results of the conference or if the proposed action in response to the complaint affects the availability of the materials to or use by other students, the principal will inform the complainant of this regulation and provide the complainant with the form "Citizen's Request for Reconsideration of Learning Resources."

c. Upon receipt of the appropriate completed form the principal will forward the form, with a written report of the conference held with the complainant, to the Assistant Superintendent for Curriculum and Instruction, the teacher or media specialist/aide involved and the citizen.

2. Review and Recommendation by the Challenged Materials Committee

a. The Assistant Superintendent for Curriculum and Instruction will promptly review the form and report to determine completeness and specificity of the complaint, obtain a copy of the learning resource being questioned and schedule a meeting of the Challenged Materials Committee ("Committee").

b. The Committee shall be comprised of three officers of the school division's Accountability Committee, the chairman of the Parents' Council, one principal, one media specialist and one certified teacher. The principal, media specialist and teacher will be selected by the Assistant Superintendent for Curriculum and Instruction or designee on an ad hoc basis, all from schools other than the one involved, giving consideration to geographic diversity, and in positions appropriate to the educational level of the student(s) affected.

c. Oral and/or written testimony for consideration by the Committee will be limited to the complainant or designee, the teacher or media specialist/aide involved, the principal and the appropriate division curriculum administrator.

d. The Committee will provide a written report and recommendation to the Superintendent, after reviewing and considering the following: i) written complaint; ii) principal's report; iii) available professional reviews; iv) applicable curriculum guides; v) objectives, criteria and procedure for the initial selection of materials; and vi) the merits of the questioned materials taken as a whole.

e. The Committee's review, evaluation and recommendation shall be limited to the specific matters stated in the Citizen's Request for Reconsideration of Learning Resources.

3. Decision of the Superintendent

The Superintendent will review the Committee's report and recommendations and will submit an administrative decision to the Amherst County School Board. The Superintendent will also inform the complainant, the Committee and the staff members involved of that decision.

4. Alternative Courses of Action

Following consideration of the complaint, the following courses of action are available: no change in status or use of the materials; provide optional or alternative assignment; use with professional guidance; use with parental permission; place materials at a higher grade level; place other limitations upon the use of the materials; withdraw from use of all students of the school; withdraw from all schools of the division.

5. Appeal to/Review by the Board

The complainant, any other citizen within the school division or any staff member has the right to appear before the school board at the next regularly scheduled meeting following receipt of the Superintendent's decision to appeal. Any board member may also request that the decision be reviewed in the absence of an appeal. The board will consider any appeal or, in the absence of an appeal, close the appeal process at such meeting.

6. Status During Review/Appeal

In the absence of extraordinary circumstances, no action affecting the availability to students of previously approved learning resources shall be taken until such time as the review/appeal process has been completed.

SEX OFFENDER REGISTRY NOTIFICATION

The Amherst County school division recognizes the danger sex offenders pose to student safety. Therefore, to protect students while they travel to and from school, attend school or are at school-related activities, each school in the Amherst County school division shall request electronic notification of the registration or reregistration of any sex offender in the same or contiguous zip codes as the school. Such requests and notifications shall be made according to the procedure established by the Virginia Department of State Police (State Police).

Annual Notification

At the beginning of each school year, the Amherst County school division shall notify parents and employees of this policy. The school board will also annually notify the parent of each student enrolled in the school division of the availability of information in the Sex Offender and Crimes Against Minors Registry and the location of the Internet website.

Dissemination of Sex Offender Registry Information

Sex offender registry information should be provided to employees who are most likely to observe unauthorized persons on or near school property including but not limited to:

- school bus drivers
- employees responsible for visitor registration
- employees responsible for bus duty
- security staff
- coaches
- playground supervisors, and
- maintenance personnel.

When registry information is disseminated, it shall include a notice that such information should not be shared with others and may only be used for the purposes discussed below. Employees who share registry information with others may be disciplined.

The Amherst County school division recognizes that it is the responsibility of local law enforcement to notify the community of potential public danger. Therefore, the division will not disseminate registry information to parents.

Use of Sex Offender Registry Information

Registry information shall only be used for the purposes of the administration of law-enforcement, screening current or prospective school division employees or volunteers and for the protection of school division students and employees. Registry information shall not be used to intimidate or harass others.

1. **Registered Sex Offender Sighted.** If a notified employee sees a registered sex offender on or near school property, around any school division student, or attending any school division activity, the Superintendent or his designee shall be notified immediately. The Superintendent or his designee may, in his or her discretion, notify local law-enforcement.
2. **School Volunteers and Student Teachers.** Each staff member shall submit to the Principal the name and address of each volunteer the staff member proposes to use as soon as the person is identified. The Principal shall screen each student teacher and volunteer's name and address against the registry information. If a match is found, the Principal shall notify the Superintendent, who shall confirm the match. If the match is confirmed, the Superintendent shall inform the individual, in writing, that he or she may not serve as a volunteer or student teacher. The notice shall provide the reason with reference to this policy. The Superintendent shall provide a copy of the notice to the Principal and staff member.
3. **Contractors' Employees.** In addition to ensuring that the certification requirements of Policy DJF Purchasing Procedures are met, the Superintendent shall include the following language in all Division contracts that may involve an employee of the contractor having any contact with a student:

The contractor shall not send any employee or agent who is a registered sex offender to any school building or school property. Monthly, the contractor shall check the registry to determine if any employee is registered.

4. **School Division Employees.** Each time sex offender registry information is received, the principal shall review it to determine if a school division employee is registered. If a match is found, the Superintendent shall confirm or disprove the match with local law enforcement. If the match is confirmed, the Superintendent shall notify the School Board. The School Board will take the appropriate action to comply with state law which may include termination of employment.
5. **Applicants for Employment.** Before hiring any person, the Superintendent shall determine whether the prospective employee is a registered sex offender. If the prospective employee is a registered sex offender, he or she shall not be hired by the division.
6. **Parents of Students and other Visitors.**

Persons who have been convicted of a sexually violent offense, as defined in Va. Code § 9.1-902, may not be present at school during school hours or during school related or school sponsored activities, on any school bus, or on any property, public or private, when such property is solely being used by an elementary or secondary school for a school-related or school-sponsored activity only as provided in Policy KNA Violent Sex Offenders on School property.

When the school division learns that a parent of an enrolled student is a registered sex offender, other than a violent sex offender, the parent will be notified in writing that he or she is barred from being present at school or at school functions without the express written approval of the student's principal. Such approval must be obtained in advance of the proposed visit and will state the conditions under which the parent may be present. When a parent who is a registered sex offender is permitted at school or at school functions he or she will be monitored to ensure that he or she does not come into contact with any children other than his or her own children. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

When the school division learns that any person other than the parent of an enrolled student who is a registered sex offender, other than a violent sex offender, seeks to be present at school or at school functions, he or she will be notified in writing that he or she is barred from being present at school or school functions without the express written approval of the principal of the school the person seeks to visit or which sponsors the event the person seeks to attend. Such approval must be obtained in advance of the proposed visit and, if obtained, will state the conditions under which the person may be present. One of the conditions will be that the person will be monitored to ensure the safety of students, staff, and others. Principals will consider requests from registered sex offenders in accordance with procedures prescribed by the superintendent.

7. Precautions to Protect Students. When the Superintendent determines it is necessary, because of the presence of a registered sex offender, alternative arrangements may be made for bus and walking routes to and from school, recess and physical education periods, or any other activity in order to protect division students.

Requests for Registry Information

Anyone requesting registry information from the school division shall be referred to the State Police.

RELATIONS WITH LAW ENFORCEMENT AUTHORITIES

Investigations by Law Enforcement Officers at School

When it becomes necessary for any law enforcement officer to interrogate a student on school premises, the principal is contacted immediately. The principal or principal's designee makes a reasonable effort to contact the parent or guardian and have the parent or guardian in attendance for the conference. If the parent or guardian cannot be present for the conference, then the principal or principal's designee is present throughout the interrogation.

Service of Process at School

Should there be a need to serve a student or school employee with any "legal process", the School Board encourages the process server to make all reasonable attempts to serve such documents off school premises; however, if the documents must be served on school premises, they should be served at the principal's office of the school which the student attends or the main office of the facility at which the employee is assigned.

In any case in which custody or visitation of a minor child is at issue and a summons is issued for the attendance and testimony of a teacher or other school employee who is not a party to the proceeding, if such summons is served on school property, it may be served only by a sheriff or his deputy.

Development of Programs

The superintendent seeks to develop, in cooperation with the local law-enforcement agencies, juvenile and domestic relations court judges and personnel, parents, and the community at large, programs and procedures to prevent violence and crime on school property and at school-sponsored events. The superintendent obtains and uses Sex Offender Registry information in accordance with Policy KN Sex Offender Registry Notification.

Report to Law Enforcement Officials

Except as may otherwise be required by federal law, regulation or jurisprudence, the principal immediately reports to local law-enforcement officials all incidents listed below that may constitute a criminal offense:

1. assault and battery which results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, abduction of any person as described in Va. Code §§ 18.2-47 or 18.2-48, or stalking of any person as described in Va. Code § 18.2-60.3, on a school bus, on school property or at a school-sponsored activity; or
2. any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance or an anabolic steroid on a school bus, on school property or at a school-sponsored activity, including the theft of or attempted theft of student prescription medications; or
3. any threats against school personnel while on a school bus, on school property or at school-sponsored activity; or

4. the illegal carrying of a firearm, as defined by Va. Code § 22.1-277.07, onto school property;
5. any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in Va. Code § 18.2-85, or explosive or incendiary devices, as defined in Va. Code § 18.2-433.1 or chemical bombs, as described in Va. Code § 18.2-87.1, on a school bus, on school property or at a school-sponsored activity; or
6. any threats or false threats to bomb, as described in Va. Code § 18.2-83, made against school personnel or involving school property or school buses.

The principal may report to local law enforcement officials any incident involving the assault or assault and battery, without bodily injury, of any person on a school bus, on school property or at a school-sponsored activity.

REPORTS OF MISSING CHILDREN

The Amherst County School Division shall receive reports of the disappearance of any child living within the school division from local law enforcement pursuant to Va. Code § 52-31.1.

Upon notification by a local law-enforcement agency of a child's disappearance, the principal of the school in which the child was enrolled at the time of the disappearance shall indicate, by mark, in the child's cumulative record that the child has been reported as missing. Upon notification by law enforcement that the child is located, the principal shall remove the mark from the record.

Upon receiving a request from any school or person for copies of the cumulative records and birth certificate of any child who has been reported by a local law-enforcement agency to be missing, the school being requested to transfer the records shall immediately notify the law-enforcement agency that provided the report to the school of the child's disappearance of the location of the school or person requesting the cumulative records and birth certificate of the child, without alerting the requestor of such report.

For the purposes of this policy, a "mark" means an electronic or other indicator that (i) is readily apparent on the student's record and (ii) will immediately alert any school personnel that the record is that of a missing child.

PARENTAL RIGHTS AND RESPONSIBILITIES

- A. When parents of a student are estranged, separated, or divorced, all personnel will respect the parental rights of both parents. Unless there is a court order to the contrary, both parents have the right to
1. view the child's school records, in accordance with Policy JO Student Records;
 2. receive school progress reports, the school calendar, and notices of major school events;
 3. visit the school in accordance with Policies KK School Visitors, KN Sex Offender Registry Notification, and KNA Violent Sex Offenders on School Property;
 4. participate in parent-teacher conferences; in the case of the noncustodial parent, after a timely request is made;
 5. receive all notifications in accordance with the Individuals with Disabilities Education Act; and
 6. receive notice of the student's extended absence, as defined in and pursuant to Policy JED Student Absences/Excuses/Dismissals, if both parents have joint physical custody.

B. Parent Responsibilities

The custodial parent has the responsibility to

1. keep the school office informed of his address and how he or she may be contacted at all times;
2. provide the current address and phone number of the noncustodial parent at registration unless such address is unknown and the parent signs a statement to that effect, or unless a court order restricts the educational or contact rights of the noncustodial parent; and
3. provide a copy of any legal document which restricts the educational and/or contact rights of the noncustodial parent.

The noncustodial parent has the responsibility to keep the school office apprised of changes in his or her current phone number and address. Further, the noncustodial parent may make timely requests to participate in parent-teacher conferences. At the request of a noncustodial parent, such parent will be included as an emergency contact for the student's activities unless a court order has been issued to the contrary.

COMMERCIAL, PROMOTIONAL AND CORPORATE SPONSORSHIPS AND PARTNERSHIPS

Generally

The Amherst County School Board recognizes that corporate and other private sponsorship of programs and activities related to education can provide valuable enhancement of the educational program offered by the Board. For that reason, the Amherst County School Board may enter into commercial, promotional and corporate sponsorship and partnership arrangements under certain conditions.

Definitions

An “educational partnership” is a mutually beneficial, co-operative relationship in which partners share values, objectives and/or human or financial resources to enhance learning for students.

An “educational sponsorship” is an arrangement pursuant to which the sponsor provides money, price reductions, equipment, materials, services or other benefits in exchange for recognition of its products or entity for a specified period of time.

Authority to Enter into Agreements

On behalf of the School Board, principals may enter into sponsorships and partnerships for their schools when the sponsorship or partnership does not extend beyond a single school year or exceed \$5,000 in value to the school.

On behalf of the School Board, the superintendent may enter into sponsorships and partnerships which will benefit more than one school or the division as a whole. The superintendent may also enter into sponsorships and partnerships when the sponsorship or partnership extends beyond a single school year or exceeds \$5,000 in value.

The School Board may create a Sponsorship Review Committee to approve any sponsorship or partnership which the Board determines should be considered by the Committee. The School Board shall establish criteria identifying proposed sponsorships and partnerships which must be approved by the Committee rather than by a principal or the superintendent. If the Committee’s decision regarding the proposed sponsorship or partnership is not unanimous, the decision may be appealed to the School Board by either the potential sponsor or partner or by a member of the Sponsorship Review Committee.

Requirements

Any agreement to enter into an educational sponsorship or educational partnership will be in writing.

The written agreement shall include:

- A statement of the educational purpose for the relationship.
- A statement that the School Board has the right to terminate the agreement without penalty if it determines that the agreement is having an adverse impact on the educational experience of students.
- A statement that if an agreement is terminated because of an adverse impact on the educational experience of students, no other agreement for an educational partnership or sponsorship will be entered into between the School Board and the partner or sponsor whose agreement has been terminated for a specified period of time.
- A statement detailing the specific benefits to the school or school division from the agreement.
- A statement clearly defining the roles, expectations, rights, and responsibilities of all parties to the agreement. This statement shall include a statement of whether the agreement permits the sponsor or partner to advertise in connection with the agreement and, if so, the extent of such advertising.
- A statement clearly defining whether the agreement creates any exclusive rights for the sponsor or partner and, if such rights are created, clearly defining those rights. If no exclusive rights are created, the agreement shall include a statement that the existence of the sponsorship or partnership will not limit the discretion of the School Board or its personnel in the use of sponsored or nonsponsored materials.
- The duration of the agreement.
- A statement that the school or School Board retains the exclusive right to authorize the use of its name, logo, or other similar information.
- A statement that the school or School Board must approve its identification as a partner or co-sponsor in all publicity materials.
- A statement of the monetary value to be received by the school or school division pursuant to the agreement.
- A statement defining how the benefits arising from agreement will be distributed.
- A statement of the basis on which students will be permitted to participate in the program or otherwise benefit from the agreement.
- A statement that the sponsor or partner assumes the responsibility for obtaining the consent of any student or School Board employee whose likeness may appear in any materials disseminated by the partner or sponsor.
- A statement disclosing any relationship between the sponsor or partner, or any of its employees or major stockholders, and any student, School Board employee, School Board member, or the superintendent.
- A statement that all partnerships and sponsorships will be consistent with all federal and state laws, local ordinances and School Board policies and regulations and with all preexisting School Board contracts. If the terms of the partnership or sponsorship agreement establish that the employees, contractors or others acting on behalf of the partner or sponsor will have direct contact with students on school property during regular school hours or during school-sponsored activities, the School Board will require the partner or sponsor to provide certification that all such persons have not been convicted of a felony or any offense involving the sexual molestation or physical or sexual abuse or rape of a child.

- A statement that no partnership or sponsorship shall exploit any student or School Board employee.
- A statement that no sponsor or partner shall be permitted to collect personal information, including names, addresses or telephone numbers of students or School Board employees because of the partnership or sponsorship.
- A statement that any curriculum materials provided pursuant to the agreement will be held to the same standards as other curriculum materials.
- A statement that any participation by any student or School Board employee in any activity established pursuant to the agreement will be purely voluntary. If a student or School Board employee wants to participate in any sponsored or partnered activity but objects to using the materials provided by the sponsor or partner, the sponsor or partner must supply substantially similar materials to which the student does not object for that student to use in the activity. If a student objects to using materials provided by the sponsor or partner, the School Board employee in charge of the activity shall provide for a means by which the student's objections are made known to other students involved in the activity and by which those objections are discussed in an educational manner.

Prohibitions

No agreement shall be entered into if the sponsorship or partnership involves or gives the appearance of involving any activity which could result in the following:

- promotion of hostility or violence;
- an attack on ethnic, racial, or religious groups;
- discrimination prohibited by any law or School Board policy;
- promotion of the use of drugs, alcohol, tobacco, electronic cigarettes or firearms;
- promotion of sexual, obscene or pornographic activities; or
- promotion of any image that is not in keeping with the established goals and purposes of the School Board.
