

**Bonds Used at PVES:**

There have been questions raised about the bond costs at PVES. There have been numerous bonds beginning in 1997. There was not a single debt just for the gym. From the total bond funds, the following projects were addressed at the building:

Library Renovations

Lighting Upgrades

Water Pipe Replacement

Site Lighting

Two Classroom Conversions

Stage Renovations

Steam to Hot Water Conversion

In the 2017 Budget Documents the amount shown for PVES debt was \$669,569. Of this the remaining gym only debt is \$581,471. The difference (approximately \$80,000) is the remaining debt for projects listed above.
