

Changing your Password

To change your password, first log in and click My Account in the bottom right hand corner of the website

Click Edit located in the center of the screen

Now type your new password twice. The webpage will tell you if your password is too weak or if they do not match. Please use a strong password.

Password

Password strength:

Confirm password

To change the current user password, enter the new password in both fields.

Picture

Click the Save button at the bottom the webpage.
