

## Setting Up PowerSchool App

In order to correct the PowerSchool app issue, you must use the directions below to correctly set up the PowerSchool mobile app.

1. If the app is already installed on your mobile device, you must delete the app. If asked to delete all the data associated with the app, select Yes.
2. Visit the Apple Store or the Google play store and download the app and install on your mobile device.
3. Open the app and the screen below should appear.

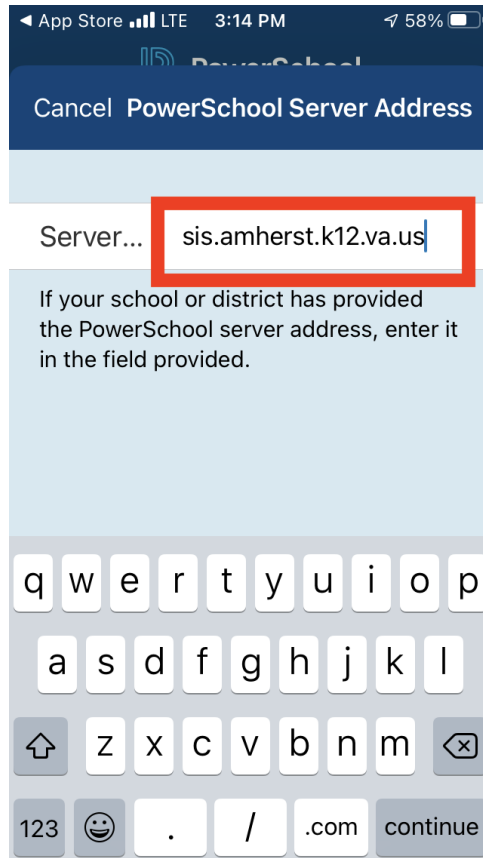

4. Click the Link that says "Where's My District Code?"
5. The following should show.

6. Click Enter Server Address

7. When the next screen appears enter the server address in the box: `sis.amherst.k12.va.us`

8. A message will appear asking if the district is located in Canada. Select No.

9. The login screen should appear next with the server address showing and a place for the username and password.
