

Access to Learning Materials and School Contact Information

March 23rd, 2020

With this being a constantly changing situation, we will continue to post updated information with times and locations as they are adjusted. The following plan has been made for the distribution of learning materials for all students in Amherst County:

Access to learning materials

- If any parents/guardians have not had the opportunity to access your students' learning materials through the school distribution method or school websites, we ask that you contact the building administrator (see email list below) to obtain a learning packet, flash drive, and/or a chromebook for your student's access.
- If you are unable to pick-up the necessary materials, please contact your student's building administrator (see email list below) to set up possible arrangements for drop-off of materials at your closest meal distribution location.
- If any student needs school supplies such as paper, pencils, crayons, markers, etc. please contact the school or pick up a school supply packet at any meal distribution location.

Amherst County Public School Contact Information (Please contact administrators via email if possible due to varied building hours).

Website and Phone	Principal's Name	Principal's Email	School Phone
